

**Art requirements**

For best results, consider the information provided below when creating your Banner Card artwork

**Product Information**  
Leave this information in place so that users have easy access to support and the user guide

**Bleed**  
Provide 3mm bleed for all over running artwork. If using colour to the edges, ensure your print is set to Borderless (printer dependant).

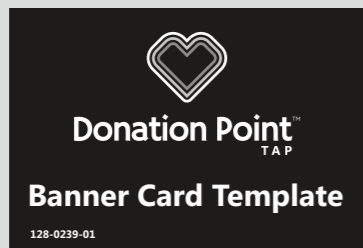

**Dieline**  
The bottom corners will be sliced off after printing

**Coverage**  
These areas are not visible - hidden by the Terminal and the rear of the Stand

**Scheme Branding**  
Brand logos should be placed near the bottom of the banner to communicate card acceptance to the user of the product

**WARNING**  
Remove Brand logos of Payment methods not accepted by your Acquirer to avoid any issues receiving donations

<b>ALL DIMENSIONS IN MILLIMETRES</b>	Revision: 01	Size: A4 full size (297 x 210mm)	Doc Colour mode: RGB <input type="checkbox"/> CMYK <input type="checkbox"/>
Scale: 1:1 @100% on A4 paper			

**PRINTING YOUR BANNER**  
When printing your banner, set your Print to A4 size @ 100% scale. If you have artwork to the edges, make sure your print is set to "borderless".

**BEFORE PRINTING**  
TURN OFF any layers that should not be visible on the finished banner.
